

mapon™

Your best car fleet
management solution

Total savings
up to **30%**

Why use it?

Real-time control

Follow your vehicle while at your office or a café. The vehicle speed, parking time, location and other information will no longer be a secret to you.

Instant reports

Daily, weekly, monthly or other period reports on the most important car fleet data.

Fuel economy

With the additional fuel meter or without it, you will be able to control and analyse the car fleet fuel consumption and its efficiency.

How will I benefit?

Increased work efficiency

You will be surprised by what a person can manage if you know what he is doing!

Significantly decreased costs

Reduced car mileage, lower telephone bills and the decreasing fuel consumption will positively influence your company budget as soon as the first month.

Improved service quality

Faster delivery of goods, elimination of non-completed tasks and possibility for the client to follow the task execution – these are only a few of the benefits your clients will appreciate.

MapOn is a car fleet management system that uses GPS and GPRS technologies.
With MapOn, you can follow your car fleet from anywhere in the world! All you need is the Internet.

Decrease administrative work amounts up to 50%

What are the options?

Reports on any time period

Want to know the total car fleet mileage of this month, the routes and the parking periods or the completion of the tasks?

Road signs

Enter the basic routes and the rest will be completed by MapOn, including the export to pdf or excel format.

Warnings

Want to know whether the vehicle has exceeded the set speed, has left the object or whether it has been in the object at all? Set up your own warnings and receive information by e-mail or sms.

Working time management

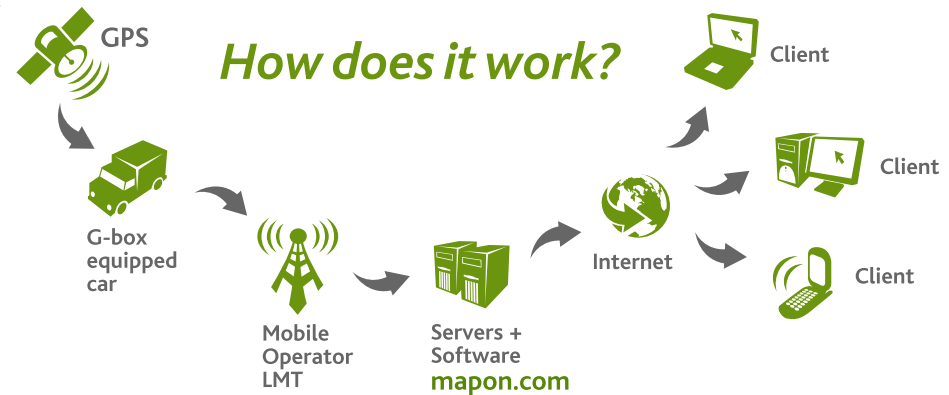

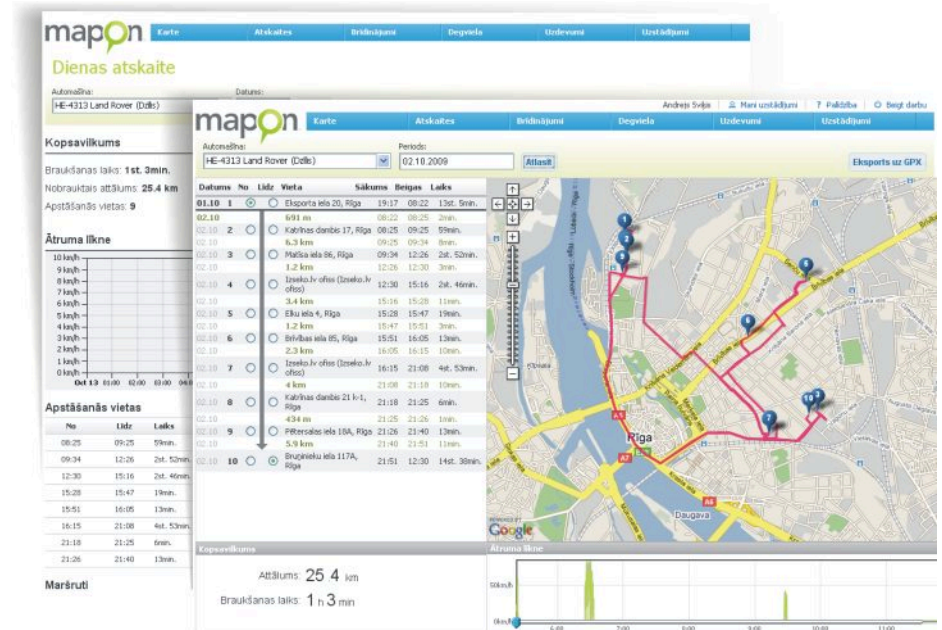

Which employee is starting work later and who is the hardest working? You only have to set up your company work schedule and MapOn will show you everything.

Object management

It does not matter whether there are 3 or 300 objects included in the daily work, because MapOn will provide you every information you need – whether and when they have been visited, how much time has been spent at every one of them and at what time they have been departed from.

Fuel consumption analyses

The actual fuel amount and consumption, fuel refill list. Upload of fuel cheques and analyses.
